EDUCATION

Odisha University of Technology and Research, Bhubaneswar, Odisha   July 2019 - May 2022
Master of Computer Application, CGPA: 9.08

SKILLS

Languages: JavaScript, CSS, HTML5

Tools: VS Code, Git, Firebase, Expo, Redux, npm/Yarn, Xcode (for iOS development), Android Studio (for Android development), Postman

Libraries/Frameworks: React Native, Redux toolkit,Context API, React Hooks,socket.io,Razorpay(Payment), Axios & RTK (for API calls),ReactJS, React Navigation,React Native Agora(Video, Audio Call),React Native Call keep(Call notification), Reanimated, Animatable, Chakra UI, Ant Design,Material UI, Bootstrap

Others: RESTful APIs,MongoDB,JSON, SVG,JIRA, Agile methodologies

WORK EXPERIENCE(3 Year)

It Services India(https://www.itservicesindia.com/), Ahmadabad, India   May 2023 - Present
React Native Developer (React Native, Redux, MongoDB)

- ➢ Technically-Proficient for the implementation of new features in React Native, integrating seamlessly with NodeJS backend **API** using RESTful services and efficient data handling, implementing socket i.o ensuring real-time data streaming to meet dynamic business requirements.
- ➢ Designed and optimized reusable **UI components** such as buttons and modals, ensuring consistency and modularity across the app using **React Native Reanimated** for custom animations, **Animatable library** for enhanced user interactions, and **pixel-perfect** resizing for responsive design.
- ➢ Managed state effectively with **Redux**, **Hooks, Context API** and optimized rendering performance for a smooth user experience.
- ➢ Implement Video , Audio call using **React native agora** third party library,Real time Chat using socket.io and implement Notification using firebase and works on **Razorpay** for payment
- ➢ Dedicated and Collaborated with cross-functional teams to deliver high-quality, scalable, and maintainable mobile applications.

2Tab Health OS(https://docs.healthos.co/), Bhubaneswar,India   April 2022 - May 2023
Software Engineer(React Native,Node JS, Data Scraping, MongoDB)

- ➢ Full-Stack web and **mobile application** development using **React native** with **expo** ,More spends on debug and Implement in the existing code base.
- ➢ Expertise in web scraping using **Node js** with **Cheerio** library for efficient data extractions and analysis for business requirement
- ➢ Skilled in designing and implementing **mongodb** data modal with advanced aggregations for data analysis.
- ➢ Give Support to existing websites, fix some bugs and deploy on the live server according to business requirement

PROJECTS

E-Commerce Mobile Application(Personal Projects)

- ➢ Develop a user-friendly e-commerce app for Android using React Native, with Node.js and MongoDB for backend. Efficient product search, purchase and tracking will save time and increase productivity. Admin side can add , edit and update products
- ➢ GitHub Link:- https://github.com/lalit58/e-comRN.

My Squad(IOS,Android), Vachit Application(IOS,Android),Astro Aakshar(Customer: Android,Astrologer: Android,IOS) (Professional Projects)

- ➢ Replicate complete UI from xd & figma design in React native, Integrate api with Handle data with optimization for android and ios app with complex functionality with remainted library for animation
